PROFILE

I am a Full-Stack Developer with a strong background in web and mobile development. I have practical experience in HTML, CSS, JavaScript, PHP, Laravel, C#, .NET Core, and Flutter. Throughout my career, I have developed various applications and worked on real-world projects. I am always keen to learn new technologies and contribute to meaningful projects that make a positive impact.

WORK EXPERIENCE

- Saaritech Solutions** SEP 2023 - PRESENT
CEO - Founder
 - I founded SaariTech Solutions, where I work independently to manage client relationships and handle all aspects of project development. I specialize in delivering custom web and mobile solutions, ensuring quality, innovation, and timely delivery for my clients.
- Freelancing** 2020 - PRESENT
Freelance Full-Stack Developer
 - Developed custom web and mobile applications for various clients, delivering responsive and scalable solutions. Collaborated closely with clients to understand their specific needs and provided tailored, efficient results that aligned with their business objectives.

PROJECTS

Freelancing Platform with Chat

- Laravel PHP, featuring real-time chat, payment integration, and gig posting
